

PRESCRIBING INFORMATION

Relactagel, vaginal gel

Recommended Use:

Helps to relieve and prevent symptoms of Bacterial Vaginosis (B.V.)
Relieves abnormal discharge and odour. Restores and maintains normal vaginal pH. Lactic acid helps restore the normal acidic pH balance of the vagina.

When normal pH balance is present in the vagina, lactobacilli are encouraged to grow which restores the natural balance of the vaginal flora.

Can be Used During Pregnancy

Directions for Use (Adults):

Intravaginal application.

For relief of Bacterial Vaginosis:

Use 1 single applicator every day for 7 days at bedtime.

For prevention of bacterial vaginosis:

Use 1 single applicator every day for 2- 3 days at bedtime after menstruation.

Contraindications:

Known allergy to any of the constituents. Relactagel contains glycogen obtained from oysters. Do not use if you are allergic to shellfish.

Warnings:

- If symptoms persist or worsen, consult a health care practitioner.
- May cause mild irritation during fungal infection including thrush or when there are small cracks or tears in the vaginal tissue.
- If vaginal infection occurs during pregnancy, consult a healthcare practitioner.
- Relactagel should be avoided when trying to become pregnant as semen is alkaline and may be neutralized by the lactic acid.
- Keep out of reach and sight of children.

Packaging:

Relactagel is available in boxes of 7 x 5 mL single dose applicators.

Medicinal Ingredients:

Lactic acid225 mg

Non-medicinal Ingredients:

Glycogen, Sodium Hydroxide, Hydroxypropylmethylcellulose, Propylene glycol, purified water
